

337LBA350M2DD

**Part Number:** [337LBA350M2DD](#)

**Manufacturer:** [Illinois Capacitor](#)

**Description:** CAP ALUM 330UF 20% 350V SNAP

**Data sheet:**  [LBA Series Datasheet](#)

**RoHs Status:** Lead free / RoHS Compliant

**Ship From:** Hong Kong

**Shipment Way:** DHL/Fedex/TNT/UPS/EMS

| Detailed Description                                                                                                                                                                                                                                                                                                                                                                                                                                            | 330µF 350V Aluminum Electrolytic Capacitors Radial, Can - Snap-In 753.57 mOhm @ 120Hz 2000 Hrs @ 85°C | Capacitance                        | 330µF                                |
| Applications                                                                                                                                                                                                                                                                                                                                                                                                                                                    | General Purpose                                                                                       |                                    |                                      |
| Component-World.com is a Reliable Stocking Distributor of Electronic Components. We specialize in all Illinois Capacitor series electronic components. We have 31817 pieces of Illinois Capacitor 337LBA350M2DD in stock available now. Request a quote from electronics components distributor at Component-World.com, our sales team will contact you within 24 hours.<br>RFQ Email: <a href="mailto:info@Components-World.com">info@Components-World.com</a> |                                                                                                       |                                    |                                      |
